Growth of the Oregon State University Honors College

How much of each school is in Honors?

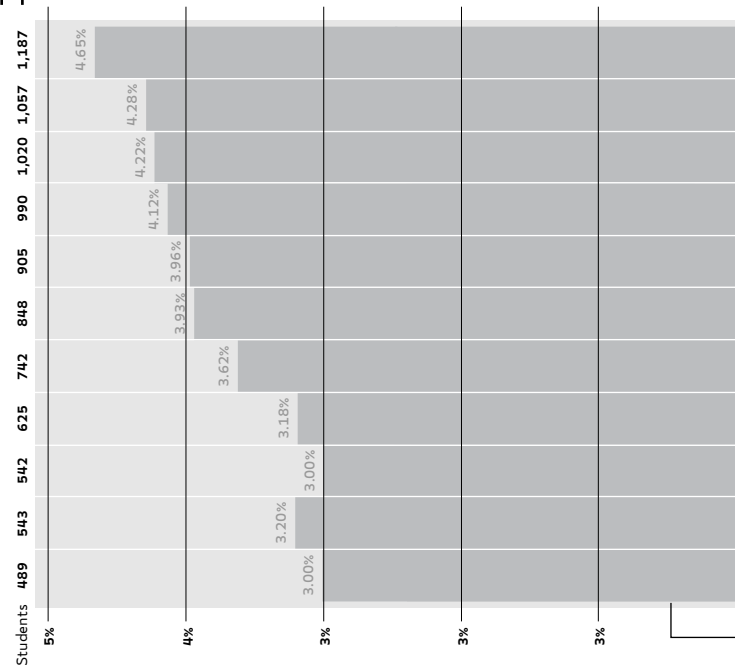

The shaded bars above show the portion of each sector of OSU's Student body (Such as **Business** or **Liberal Arts**) that was enrolled in the Honors College each year from fall 2007 to fall 2017.

How has the university grown over time?

The graph in the upper left shows OSU's growth over those eleven years, broken down by sector. We see that the **Engineering** sector grew the most. The Honors population of small sectors (like **Forestry**) can't be seen at this range.

What portion of OSU is in Honors?

The graph in the lower left shows what proportion of the Student body was enrolled in the UHC each year. This proportion has steadily increased over time, growing from three to almost five percent in eleven years.

Three percent of the OSU Student body was enrolled in the UHC in 2007.
